No Burials - between 2816B (Mar 31, 1858) & 2817B (Jul 25, 1858) Probably unrecorded mass burials during a cholera epidemic.

Civil War Burials - appear to have been recorded at later dates. Possibly the Army supplied thier burial lists to be recorded at the end of the month.

Fairview Cemetery, originally Northern Burying Ground, was purchased by the city of New Albany, in several tracts:

Jul 30, 1841 - Margaret Shelby Laughrey Wilson - S 1/2 a.

Feb 9, 1842 - Mary Ann, wife of Elias Ayres

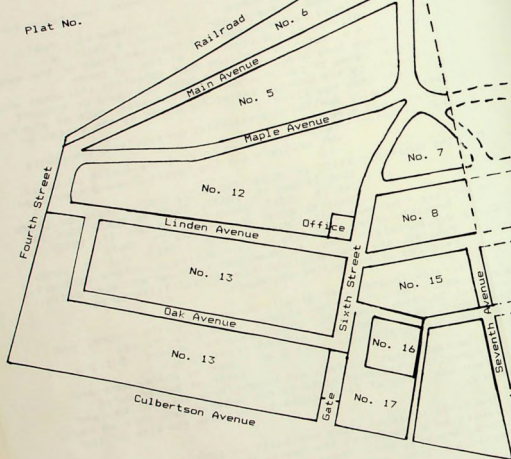

1846 - Robert Downey - 4 1/2 a. (known as Downey Gore and later as Beeler Gore)

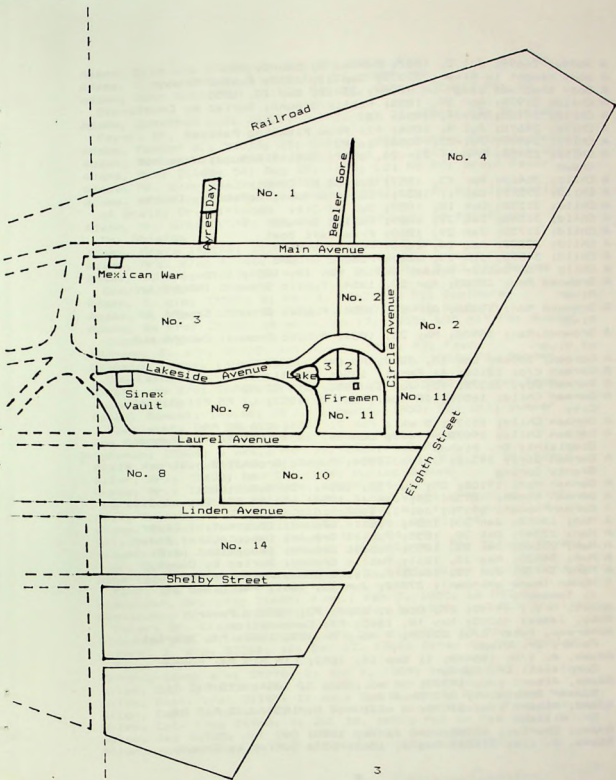

It was believed that the land was bought from Silas C. Day and Elias Ayres, but the deed books do not substantiate this as fact. More land was added at later dates to increase the size of the cemetery.

The first vault of stone was built in 1850, by Thomas Sinex. Dirt vaults were erected by the Roans, Meekins, Shellers, Allens, Dannikers, Drapers, etc. These have all been removed except for the Meekin and Sinex vaults.

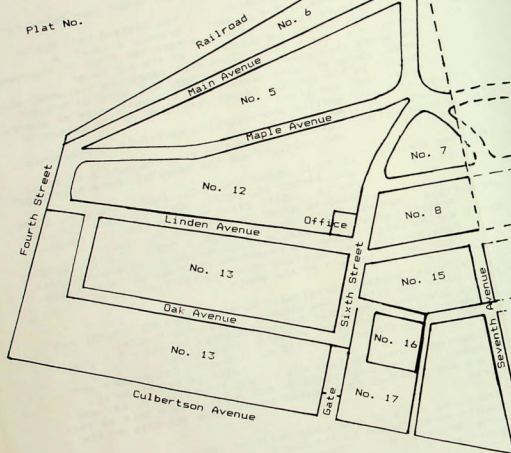

On Dec 15, 1849, the Odd Fellows Lodge reserved a tract for use by its members. Several churches and other groups reserved tracts at later dates.

Fairview Cemetery Burials with Double Numbers

While working on the records at Fairview Cemetery in New Albany, Indiana, we realized that for a short time some of the burials had been given two different burial numbers with two different burial years in the burial register.

The first entry is from the book *Persons Buried in Ground Owned by the City of New Albany 1841-1852*. The second entry is the number found *Fairview Cemetery Volume I*. Any age differences are noted in the second line. This information will be useful to persons having *Fairview Cemetery Vol. I*. The correct burial date is shown in *Persons Buried in Ground Owned by the City of New Albany 1841-1852* (Book lettered "I" on cemetery books shelf)
